Tips & Tricks: Editing an eRequisition

At some point, you may need to edit a line item on an eRequisition that is in “Composing,” “Submitted,” or “Denied” status. After an eRequisition has been submitted and fully approved, it is imported into the financial system and the eRequisition can no longer be changed in NC E-Procurement. However, if your eRequisition has not been fully approved and an update is required, follow these steps:

1. Find the eRequisition in your “My Documents” portlet, or by using the system search function.
2. Click the Requisition ID or the Title.
Note: If your eRequisition is in “Submitted” or “Denied” status, it must be withdrawn before changes can be made.
3. Click the “Edit” button at the top of the page.

Follow the instructions below to edit a single line item on an eRequisition.

1. Place a checkmark in the box beside the line item you want to edit.

2. Click the “Edit” button to display the “Line Item Details” page.
3. Update details about the line item as needed.

If your eRequisition has multiple line items that need to be updated, follow the instructions below to use the mass edit functionality.

1. Place a check in the checkbox beside each line item to be edited and click the “Edit” button.

During mass editing, a sample line item is displayed. Only fields that are common to all line items will be editable.

2. Edit the necessary fields and click “Next” to review the mass edit changes.
3. Review the modified fields and click “Done” to complete the mass edit and apply the changes.
