This month we share a tip about filtering searches in NC eProcurement, provide information on a new statewide term contract, and our upcoming training schedule.

**TIPS & TRICKS: FILTERING SEARCHES**

The search function enables users to search NC eProcurement Buyer for purchase requisitions, purchase orders, user profile changes, and catalog items. Search filters are useful in narrowing down search results. All filters on the ‘Search’ page can be toggled on or off using the ‘Search Options’ drop-down menu. A filter that is frequently turned off is ‘Date Created,’ which by default, returns results from the previous 15 days only. To see items created prior to the last 15 days, the ‘Date Created’ field should be hidden.

To hide the ‘Date Created’ field:

1. On the ‘Search’ page, select the ‘Search Options’ drop-down menu on the upper right.

2. Uncheck the ‘Date Created’ option on the menu.
The ‘Date Created’ field will no longer appear in the Search Filters section for the current session.

**Note:** The above steps can be used to add or remove any search filters as needed. Only the fields selected from the ‘Search Options’ drop-down menu will appear on the ‘Search Filters’ page.

For more information about search options, see the [Getting Started] job aid.
