

The New eVP Updates

March 2023

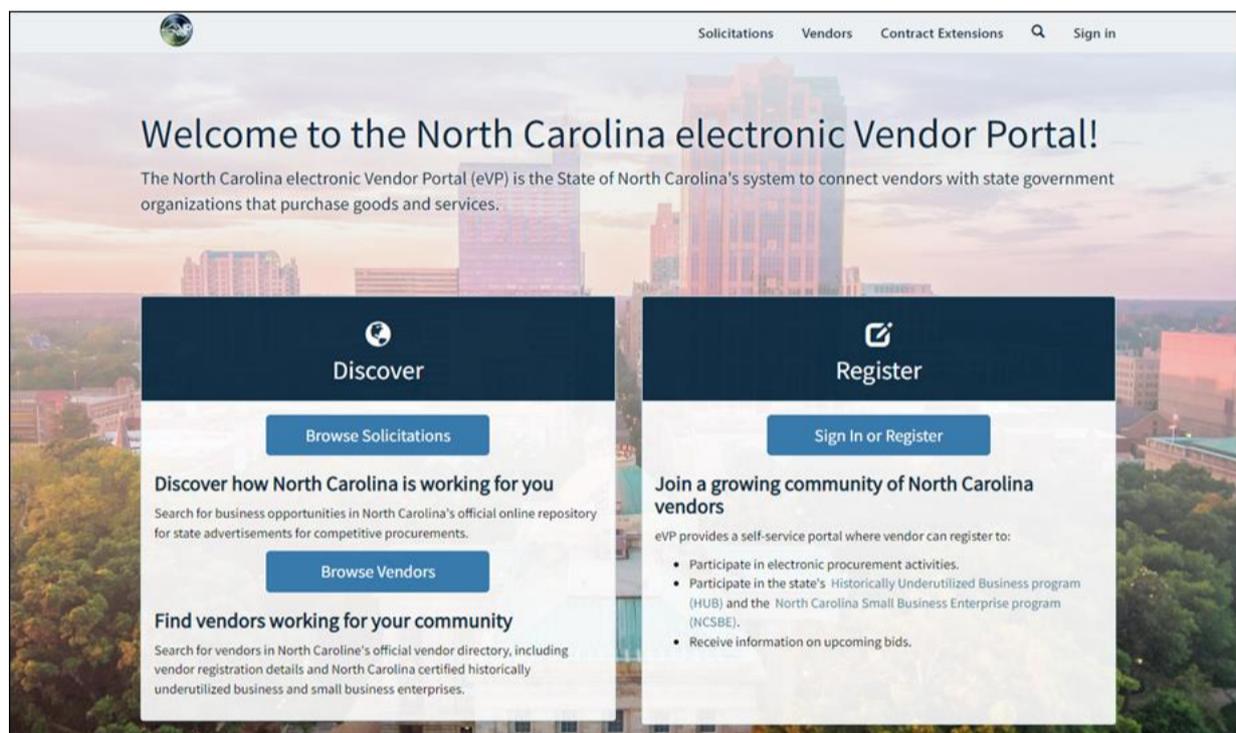

WHAT'S HAPPENING ...

A new electronic Vendor Portal (eVP) is underway and will include optimized functionality from eVP, IPS and NC BIDS. Among other improved features, the new eVP will include:

-  Enhanced public vendor search
-  Consolidated vendor data
-  Auto-posting of bids from Ariba Sourcing
-  New file interface in place of NC BIDS
-  Online HUB/NCSBE certification process

WHAT'S NEW ...

Here is a sneak peek of the new eVP webpage! This is where buyers and vendors will go to view posted solicitations and extended contracts. It is also where vendors will register or manage their eVP account and where buyers can search for registered vendors.

WHAT'S THE IMPACT ...

This new website brings together features from eVP, IPS and NC BIDS – all in one place:

WHAT'S NEXT...

The project's go-live timeline has been slightly extended. To minimize impact on fiscal year-end processes, early FY24 is being targeted for the new eVP go-live date.

Training for the new eVP is planned for the month leading up to go-live. Webinars on topics such as posting solicitations and searching for vendors, as well as updated training materials, will be available.

Stay tuned! You'll find the latest details on the [NCEP News & Events page](#).
