Modifying a Contract Workspace

Once a Contract Workspace (CW) has been published it can only be modified when a user with **'Project Owner'** capabilities initiates the **'Amendment'** process. Please note that **'Amendment'** within NC eProcurement Contracts should be understood as any of the four types of contract modifications available within the system and differs from the way in which the State defines "Amendment," usually referring to a document changing the terms of an original solicitation or contract.

When users need to modify a CW, they will do so by creating an **'Amendment'** within the system. NC eProcurement Contracts supports multiple types of **'Amendments'** and most of them temporarily change the **'Status'** of the CW to **'Draft Amendment'** until the modification is finalized and the CW is once again **'Published'** to create a new version of the CW.

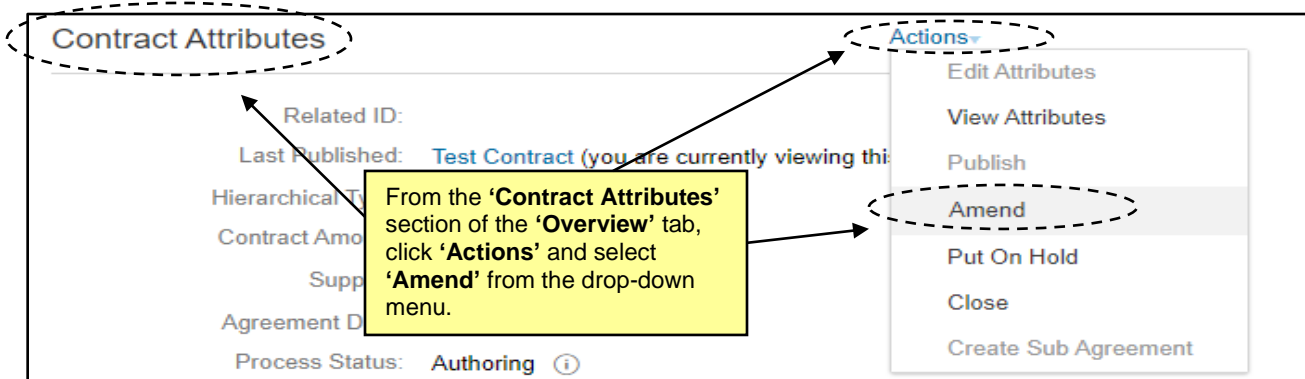

I. Types of 'Amendments'

There are four different types of **'Amendments'** available to **'Project Owners'** when they wish to modify a CW.

1. **'Administrative'**: The most basic of CW modifications. This amendment allows the **'Project Owner'** to modify non-contract details such as adding a **'Team Member'** or uploading a supplemental document. No modifications are permitted to the actual contract or its terms. This **'Amendment'** type does not change the CW status to **'Draft Amendment,'** but rather it remains as **'Published.'**
2. **'Amendment'**: Allows the **'Project Owner'** to modify any part of the CW such as the **'Commodity Code'** or the language of what the contract covers. This will also be used for any **'Extension'** (not a renewal) of an existing contract, so the **'Expiration Date'** can be updated. Initiating this **'Amendment'** type will change the CW status to **'Draft Amendment'** and it will need to be **'Published'** again to reactivate.
3. **'Renewal'**: Allows the **'Project Owner'** to modify the **'Expiration Date'** based on any pre-negotiated renewal options built into the initial contract. Additional fields may also be editable in this **'Amendment.'** Initiating this **'Amendment'** type will change the CW status to **'Draft Amendment'** and it will need to be **'Published'** again to reactivate.
4. **'Termination'**: Allows the **'Project Owner'** to modify the **'Expiration Date'** to close a contract early due to an adverse condition or disagreement.

II. Initiating an 'Amendment'

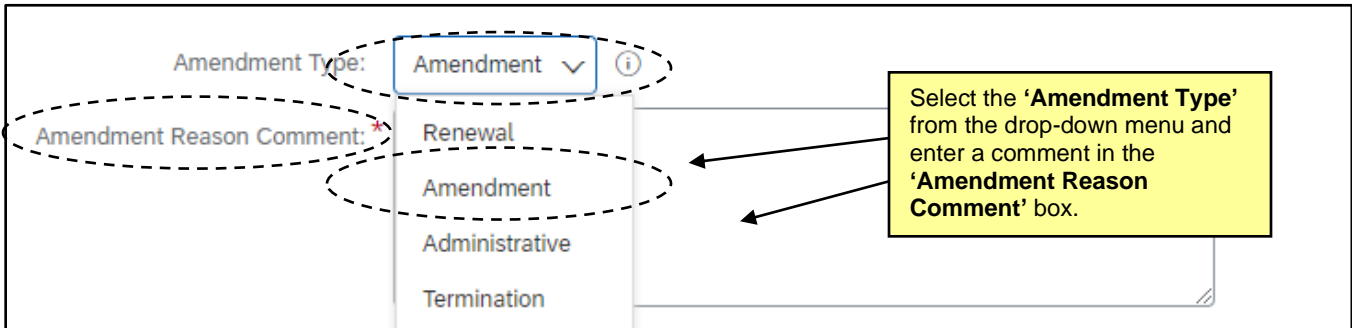

1. On the **'Overview'** tab, scroll down to the **'Contract Attributes'** section and click **'Actions.'** From the ensuing drop-down menu, select **'Amend.'**

NC eProcurement

Modifying a Contract Workspace

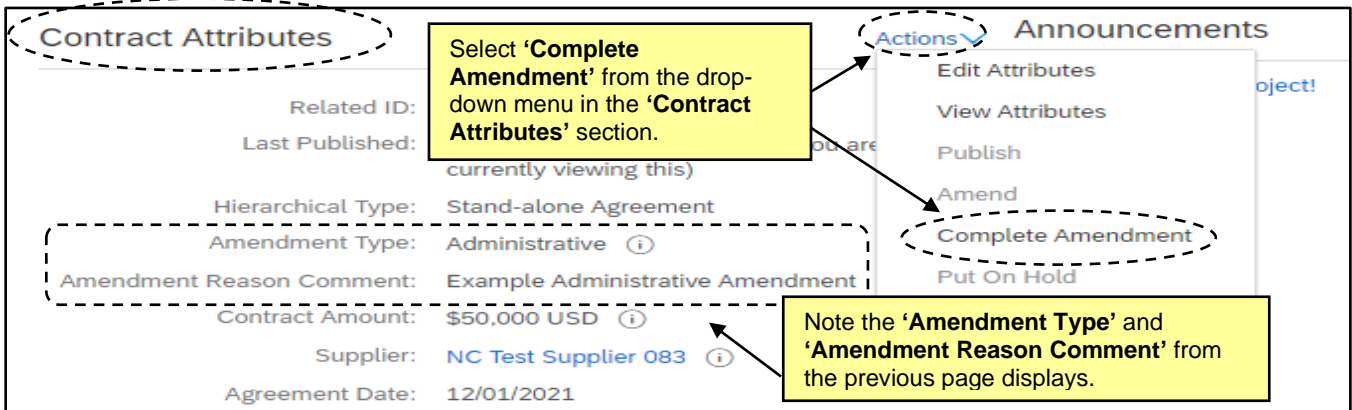

- On the next page, select the **'Amendment Type'** from the drop-down menu and add a comment regarding the reason for the **'Amendment.'** Click **'OK'** and the **'Overview'** tab will display.

III. 'Administrative Amendment'

An **'Administrative Amendment'** indicates a small administrative change and is limited in nature. The **'Contract Status'** of the Contract Workspace (CW) never changes from **'Published.'**

- Make any necessary changes on the **'Overview'** tab, add a **'Team Member,'** or load an additional supporting document.
- Return to the **'Overview'** tab (if the user has navigated away), scroll down to the **'Contract Attributes'** section, and click **'Actions.'** From the ensuing drop-down menu, select **'Complete Amendment.'** The CW is updated to a higher version, and it remained in **'Published'** status throughout.

IV. 'Amendment Amendment'

An **'Amendment Amendment'** allows the **'Project Owner'** to change any part of the project, including the actual terms of the contract. This section details the **'Amendment'** option.

- After selecting **'Amendment Amendment,'** the **'Overview'** tab will display. The **'Status'** field will be listed as **'Draft Amendment'** and the **'Version'** field will be listed as **'v2 (editing)'** [or v3/4/5, etc., depending on what number the previous **'Version'** was].

NC eProcurement

Modifying a Contract Workspace

Note: While a CW is in a 'Status' of 'Draft Amendment,' all scheduled 'Expiration Notification' emails will be suspended until the modification is complete and the 'Status' goes back to 'Published.'

 Phase 3 - Contract Modification

Updates to the 'Contract Status' and 'Version' fields.

- Navigate to the 'Tasks' tab to view the newly-added phase (3) and tasks to help guide user through the amendment process. Clicking the blue arrow to the left of 'Phase 3 - Contract Modification' will display a subsection titled 'Amendment Modification.' Clicking the blue arrow to the left of that will reveal an 'Amendment' subsection. Click the blue arrow to the left of the 'Amendment' option to reveal the tasks associated with that type of modification.

New Modification 'Phase.'
 'Amendment' sub-option.
 'Tasks.'

- As with the 'Tasks' in the first two phases associated with the initial creation of the Contract Workspace, the tasks themselves are not required to be completed to finalize a modification, but rather are intended to serve as a road map for best practices. The exception to this is if the contract being amended is over the entity's delegation. In this case an additional 'Approval Task' to 'Gain P&C Approval of Amendment Over Delegation' will appear on the 'Tasks' tab. If this is not the case, users can skip to Step 9.
- The 'Gain P&C Approval of Amendment Over Delegation' task is tied to two documents on the 'Documents' tab that must be downloaded, completed, and replaced before the task can be assigned to P&C for approval. Navigate to the 'Documents' tab and click the blue arrow to the left of the 'Modification Contract Documents' folder to reveal a sub-folder for 'Amendment Modification.' Click the blue arrow to the left of the relevant option, and the documents will appear.

Modifying a Contract Workspace

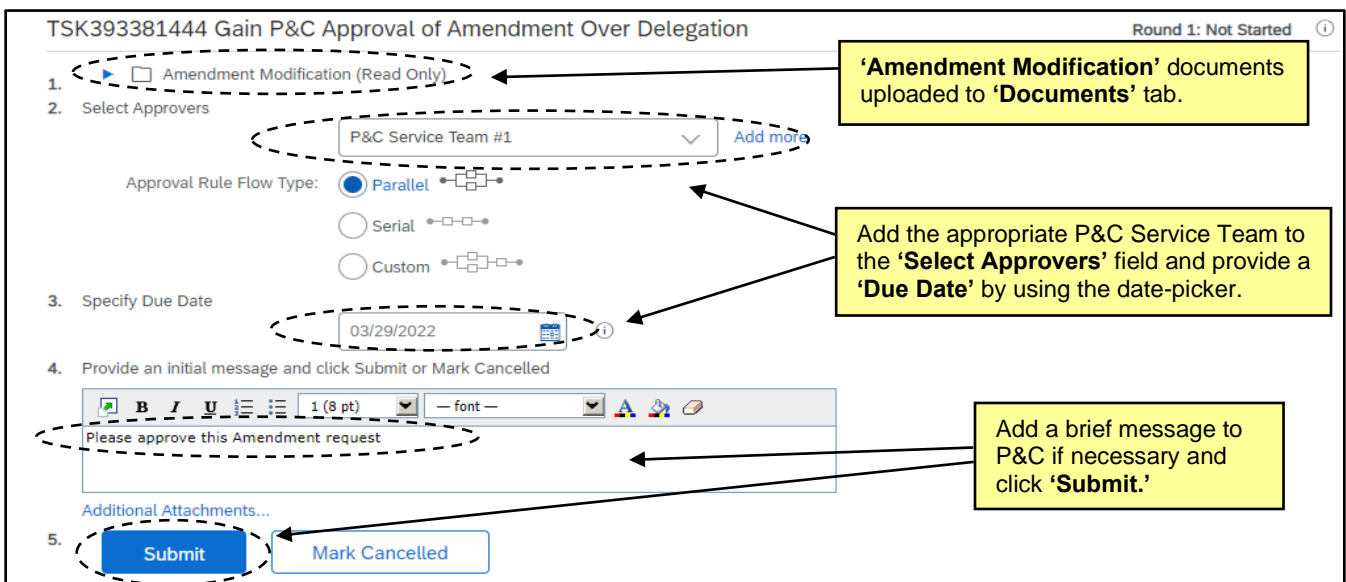

- Click on each of the document templates and select **'Download'** from the popup menu. Update the documents accordingly and save a local copy. Click back on the templates, and this time select **'Replace Document.'** Add and save the updated versions of the **'Contract Amendment Template'** and the **'Modification Request Template.'**

- Navigate back to the **'Tasks'** tab and click on the **'Gain P&C Approval of Amendment Over Delegation'** task and select **'View Task Details'** from the drop-down.

- On the subsequent **'Approval Task'** page, the user should add their **'P&C Service Team'** to the **'Select Approvers'** field, set a **'Due Date'** with the date picker in the **'Specify Due Date'** field, enter a message if necessary, and click the **'Submit'** button to send the **'Amendment'** to P&C for approval.

NC eProcurement

Modifying a Contract Workspace

- After the task is submitted to P&C, the status will change to **'In Approval'** and the user will wait for P&C to approve the request allowing the user to proceed to the next steps, or P&C will **'Deny'** the task and request that the user adjust aspects of the CW and document and resubmit for approval. Once P&C provides final approval, the task **'Status'** will automatically update to **'Approved.'**

Task	Status	Due Date

Once P&C provides final approval, the task **'Status'** will automatically update to **'Approved.'**

NC eProcurement

Modifying a Contract Workspace

- Once all requisite changes – including an updated **‘Expiration Date’** if an extension was agreed to – approvals, and signatures have been completed, return to the **‘Overview’** tab, click **‘Actions’** in the **‘Contract Attributes’** section, and select **‘Publish’** from the drop-down. The CW will revert to **‘Published’** status and cannot be edited until another **‘Amendment’** is initiated.

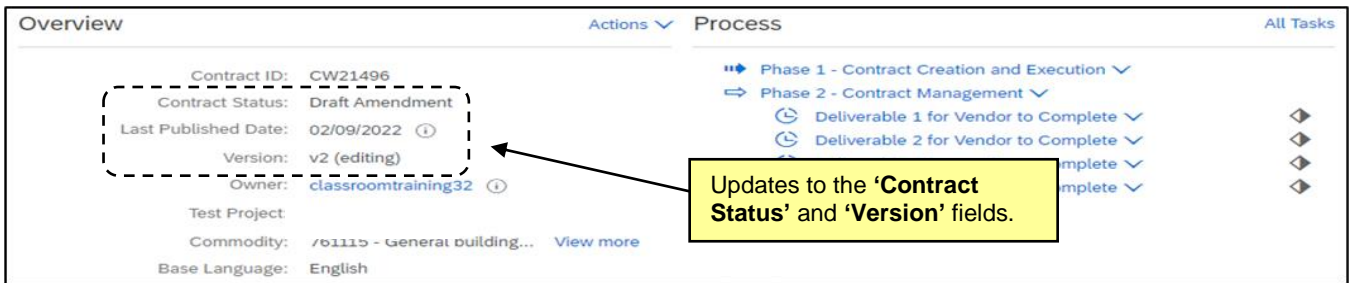

VI. ‘Renewal Amendment’

A **‘Renewal Amendment’** allows the **‘Project Owner’** to change the active dates of the contract to extend it beyond its originally agreed-to **‘Date of Expiration.’** Renewals do not need additional P&C approval because the optional additional term was approved during the original contract negotiation process.

- After selecting **‘Renewal Amendment,’** the **‘Overview’** tab will display. The **‘Status’** field will be listed as **‘Draft Amendment’** and the **‘Version’** field will be listed as **‘v2 (editing)’** [or v3/4/5, etc., depending on what number the previous **‘Version’** was].

Note: While a CW is in a **‘Status’** of **‘Draft Amendment,’** all scheduled **‘Expiration Notification’** emails will be suspended until the modification is complete and the **‘Status’** goes back to **‘Published.’**

- Navigate to the **‘Tasks’** tab to view the newly-added phase (3) and tasks to help guide user through the renewal process. Clicking the blue arrow to the left of **‘Phase 3 – Contract Modification’** will display a subsection titled **‘Option to Renew.’** Clicking the blue arrow to the left of that will reveal the tasks associated with the renewal process.

NC eProcurement

Modifying a Contract Workspace

- As with the **Tasks** in the first two phases associated with the initial creation of the Contract Workspace, the tasks themselves are not required to be completed to finalize a modification, but rather are intended to serve as a road map for best practices. Additionally, an **Option to Renew** folder will be added to the newly-created **Modification Contract Documents** folder on the **Documents** tab in which users will find a **Contract Renewal Template** that can be used to notify the vendor that the renewal option is being exercised.
- Once all requisite changes have been made – such as adjusting the expiration date – and any new documents have been added, return to the **Overview** tab, click **Actions** in the **Contract Attributes** section, and select **Publish** from the drop-down. The CW will revert to **Published** status and cannot be edited again until another **Amendment** is initiated.

VII. 'Termination Amendment'

A **'Termination Amendment'** allows the **'Project Owner'** to close a contract before its originally agreed-to **'Date of Expiration'** in the event of an adverse condition or disagreement.

- After selecting **'Termination Amendment,'** the **'Overview'** tab will display. The **'Status'** field will be listed as **'Draft Amendment'** and the **'Version'** field will be listed as **'v2 (editing)'** [or v3/4/5, etc., depending on what number the previous **'Version'** was].

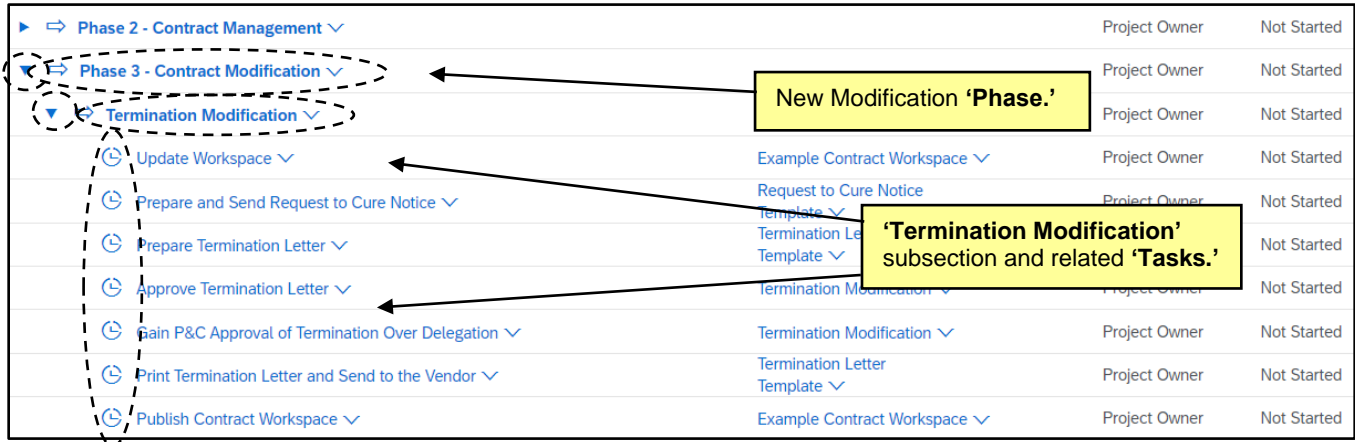

Note: While a CW is in a **'Status'** of **'Draft Amendment,'** all scheduled **'Expiration Notification'** emails will be suspended until the modification is complete and the **'Status'** goes back to **'Published.'**

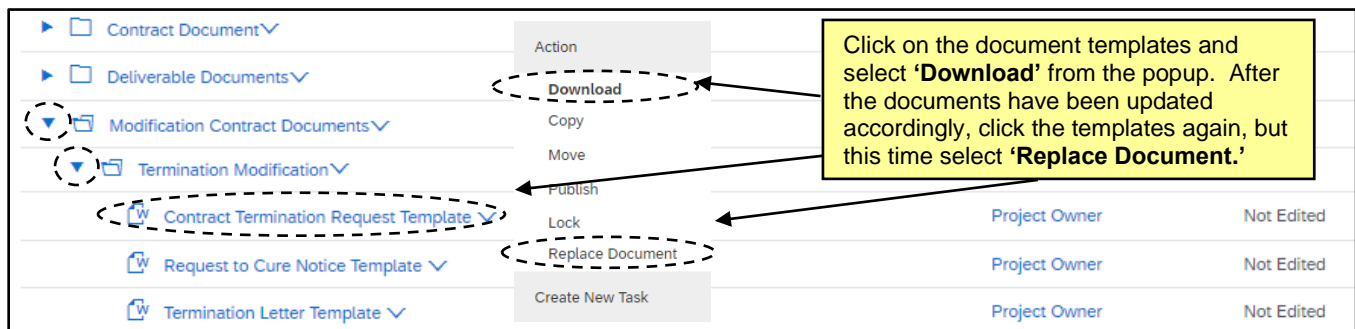

NC eProcurement

Modifying a Contract Workspace

2. Navigate to the **'Tasks'** tab to view the newly-added phase (3) and tasks to help guide user through the termination process. Clicking the blue arrow to the left of **'Phase 3 – Contract Modification'** will display a subsection titled **'Termination Modification.'** Clicking the blue arrow to the left of that will reveal the tasks associated with the termination process.

3. As with the **'Tasks'** in the first two phases associated with the initial creation of the Contract Workspace, the tasks themselves are not required to be completed to finalize a modification, but rather are intended to serve as a road map for best practices. The exception to this is if the contract being amended or extended is over the Entity's delegation. In this case an additional **'Approval Task'** to **'Gain P&C Approval of Termination Over Delegation'** will appear on the **'Tasks'** tab. If this is not the case, users can skip to **Step 9**.
4. The **'Gain P&C Approval of Termination Over Delegation'** task is tied to three documents on the **'Documents'** tab that must be downloaded, completed, and replaced before the task can be assigned to P&C for approval. Navigate to the **'Documents'** tab and click the blue arrow to the left of the **'Modification Contract Documents'** folder to reveal the **'Termination Modification'** folder. Click the blue arrow to the left of that folder and the documents will appear.
5. Click on each of the templates and select **'Download'** from the popup menu. Update the documents accordingly and save a local copy. Click back on the templates, and this time select **'Replace Document.'** Add and save the updated versions to the **'Termination Modification'** folder.

NC eProcurement

Modifying a Contract Workspace

- Navigate back to the 'Tasks' tab and click on the 'Gain P&C Approval of Termination Over Delegation' task and select 'View Task Details' from the drop-down.

- On the subsequent 'Approval Task' page, the user should add their 'P&C Service Team' to the 'Select Approvers' field, set a 'Due Date' with the date picker in the 'Specify Due Date' field, enter a message if necessary, and click the 'Submit' button to send the 'Termination Letter' to P&C for approval.

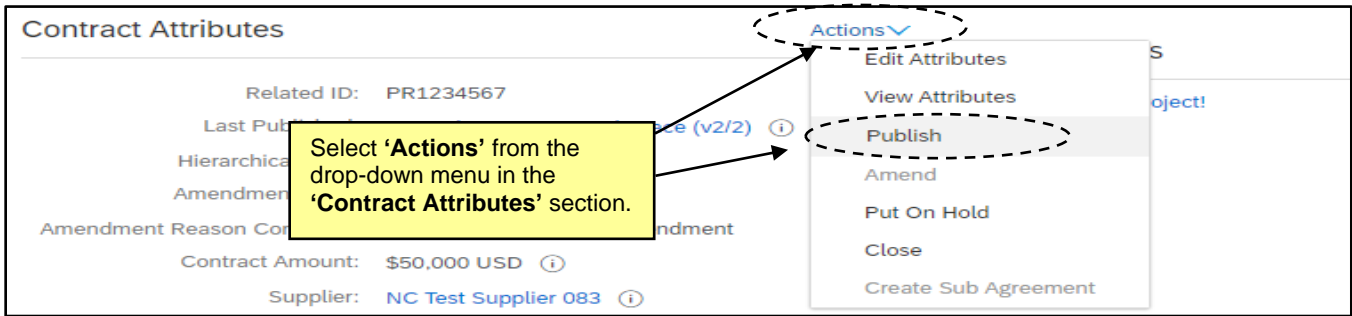

- After the task is submitted to P&C, the status will change to 'In Approval' and the user will wait for P&C to approve the request allowing the user to proceed to the next steps, or P&C will 'Deny' the task and request that the user adjust aspects of the CW and document and resubmit for approval. Once P&C provides final approval, the task 'Status' will automatically update to 'Approved.'

NC eProcurement

Modifying a Contract Workspace

- Once all requisite changes – including an updated **‘Expiration Date’** – approvals, and signatures have been completed, return to the **‘Overview’** tab, click **‘Actions’** in the **‘Contract Attributes’** section, and select **‘Publish’** from the drop-down. The CW will revert to **‘Published’** status and cannot be edited again unless another **‘Amendment’** is initiated.

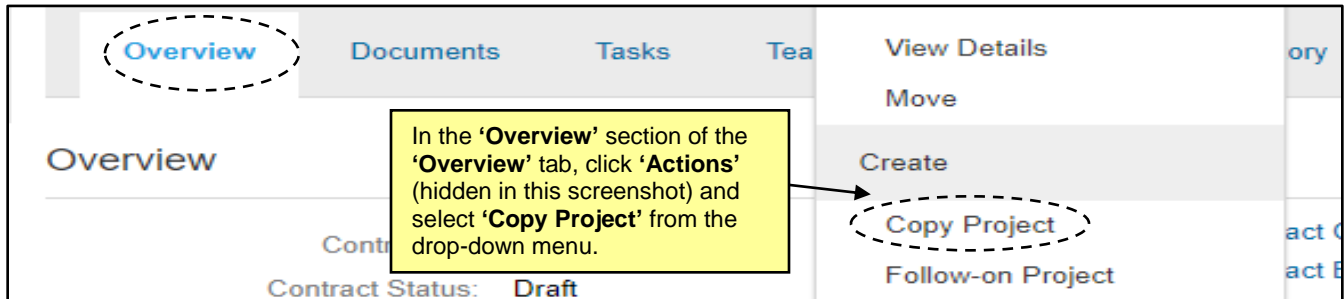

Note: CWs will not expire immediately. The system needs to refresh on the new **‘Expiration Date’** before the **‘Status’** updates from **‘Published’** to **‘Expired.’**

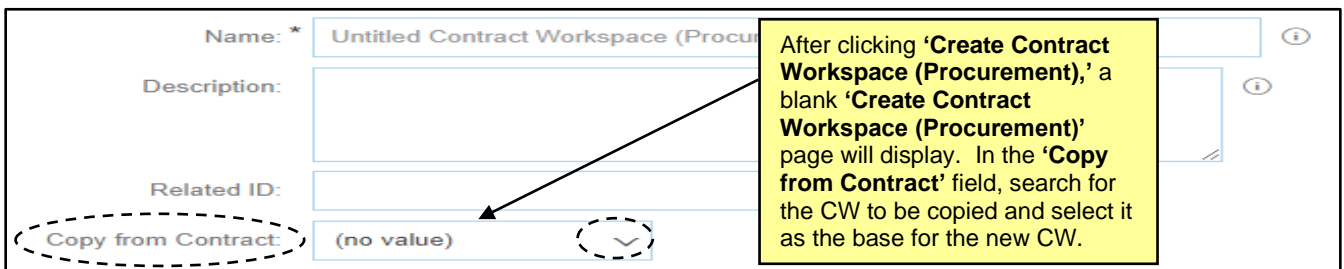

VIII. Copying a Contract Workspace

When creating a new Contract Workspace (CW) that is similar to a previous CW, the **‘Project Owner’** has the option to copy a previous CW.

- There are two options to begin the process of copying a Contract Workspace:
 - On the **‘Overview’** tab of an existing CW, click **‘Actions’** in the **‘Overview’** section and select **‘Copy Project’** on the drop-down menu.

- Click **‘Create Contract Workspace (Procurement)’** and a blank **‘Create Contract Workspace (Procurement)’** page will display. In the **‘Copy from Contract’** field, click the down-arrow to search for the previous CW to copy and click **‘Select’** to use it as basis for the new CW.

NC eProcurement

Modifying a Contract Workspace

2. Certain contract attribute fields will auto-populate with information carried over from the CW that was copied, but not all fields. Notably, **'Name,' 'Description,' 'Test Project,' 'Agreement Date,'** and **'Expiration Date'** are required fields that will not auto-populate and must be manually entered before the **'Project Owner'** can click **'Create.'**
3. The **'Template'** type will auto-select based on the previous CW, but the **'Project Owner'** will have to answer the template questions again. Two additional questions will appear below the traditional template questions: **'Do you want to copy documents that were modified in the project being copied?'** and **'Do you want to copy project groups that were not in the template and changes made to the project groups that were in the template?'** Both questions can be answered with either **'Yes'** or **'No'** from the drop-down menus. When all Contract Attribute fields are filled in and all questions are answered, click **'Create.'**

The screenshot shows a form with two questions and a 'Create' button. The first question is 'Do you want to copy documents that were modified in the project being copied?' with a 'Yes' dropdown menu. The second question is 'Do you want to copy project groups that were not in the template and changes made to the project groups that were in the template?' with a 'Yes' dropdown menu. A yellow box highlights the text 'Answer the two additional questions after the traditional template questions and click 'Create.''. An arrow points from this box to a blue 'Create' button, which is circled with a dashed line.

4. The new CW will be created and assigned a unique **'ID number,'** and the user will be taken to the **'Overview'** tab from which they can begin to manage the rest of the CW, eventually putting it into **'Published'** status.

IX. Managing Multi-Vendor Contract Workspaces

If a **'Project Owner'** needs to create and link multiple Contract Workspaces (CW) for one contract with multiple **'Suppliers,'** it is advised they use the **'Copy'** feature.

1. Click **'Create Contract Workspace (Procurement)'** to create the initial CW.
2. Fill in all the contract attribute fields including the **'Statewide Contract ID'** field or **'Agency Contract ID'** field depending on the **'Contract Type.'** Select the **'Template'** type, answer the template questions, then click **'Create.'**
3. At this point the CW is ready to be copied. Initiate the copy through one of the two options outlined above.
4. On the **'Create Contract Workspace (Procurement)'** page of the newly copied CW, populate all fields for which information did not auto-populate.
5. In the **'Supplier'** field, search for a different **'Supplier'** on this contract and replace the copied **'Supplier'** with that value. Answer the template questions and click **'Create.'**
6. Repeat the process from this point as many times as there are unique **'Suppliers'** on the contract before executing any further **'Tasks'** on these linked CWs such as uploading the unique executed contract document for each CW and publishing the Workspace.
